a truly scientific grade
herbal vaporizer

the herbalAire

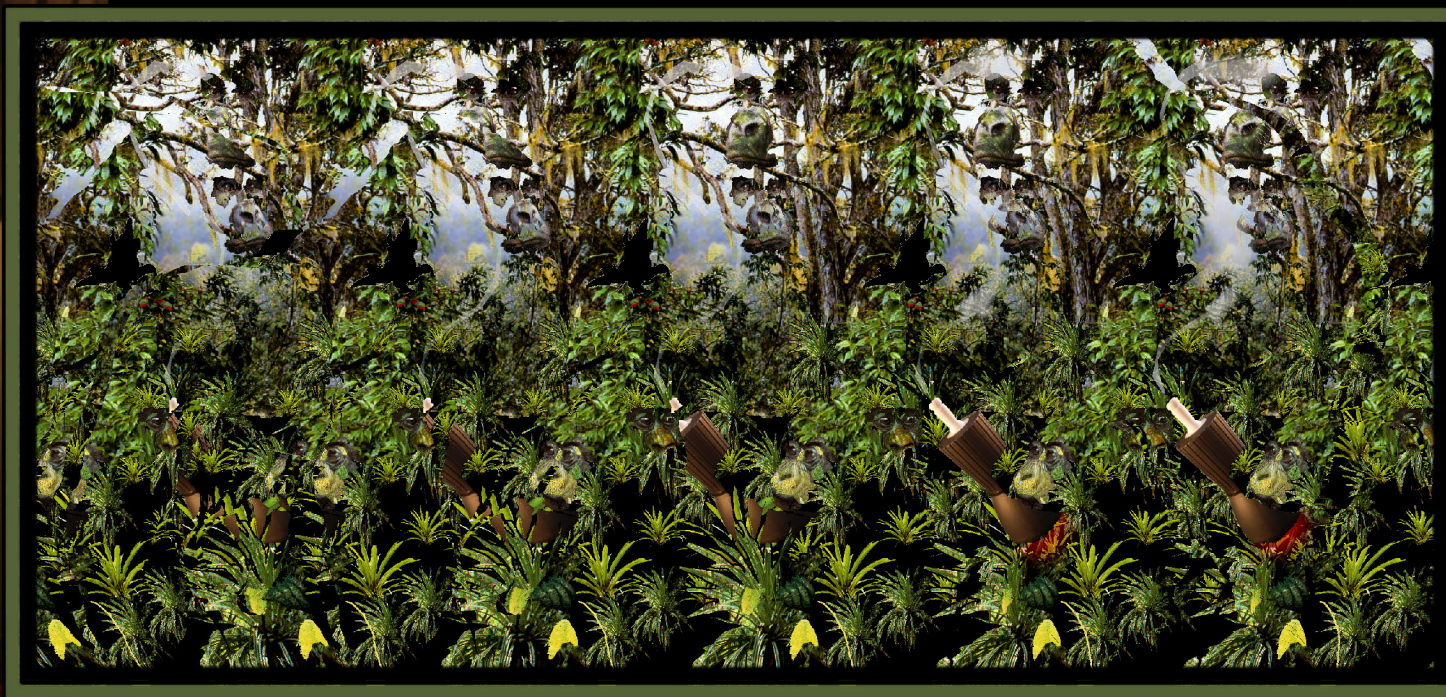

series H2.1

Superior Temperature Control

250F-400F temperature control allows for optimal vaporization temperature. Not all herbs or tobaccos should be vaporized at the same temperature. herbalAire's Learning Temperature control adapts to the climate and environment where it is being used. The sophisticated electronics will achieve the temperature you select to within 2F.

A Scientific Grade Instrument

The herbalAire is engineered to the highest of standards and is currently being used in China to research the vaporization of ancient Chinese herbal medicines. West met East 50 years ago with Martial Arts. West met East 10 years ago with Yoga. West is once again meeting the East with its depth of knowledge of ancient, therapeutic, herbal medicines. Be ready with the instrument of choice - the herbalAire.

Tiny jets of preheated air are forced through 18 precisely machined holes - the diameter and placement of which being

design- ed to optimize the extraction of herbal essences. Just one of the many quality produced components that make up the herbalAire

Extreme Efficiency - Dual Functionality Herbal Vaporizer

Test It Yourself!

Exhaust your herb of choice with **any** vaporizer. Place that "spent herb" into the herbalAire. Enjoy at least two additional bags of essence .

Gorillas in the herbal Mist

See if you can spot the creatures in the picture above. Caution: seeing the image may make you go Ape. Bohdan, inventor of the herbalAire, has many other quality inventions to his credit. Of note, in the mid nineties, his 3d images were published world wide in 15 different languages. His books, including the classic "Henry's Gift, the Magic Eye", sold over 3 million copies. Above is one of his fun pieces. When choosing a vaporizer, it can be a jungle out there. We can help you cut through the brush to focus in on a superb, quality vaporizer ...

the herbalAire

Easy Setup

Dial In Your Experience
Ready in 2-3 minutes!

Load Crucibles - Drop loaded crucibles into the large chamber - grinding not necessary!!!

Crucible - wall thickness machined to .007". This ensures quick cooling
